Profile

Computer Engineering student passionate about bridging the gap between robust backend code and beautiful user interfaces. Aspiring Full-Stack Developer with a strong foundation in Java and Next.js, and a keen eye for UI/Graphic Design. Eager to apply academic knowledge and self-taught skills in a professional environment.

Education

2024–Present **BSc in Computer Engineering (Engenharia Informática)**, *Universidade Portuguesa Infante D. Henrique*, Porto, Current Year: 2nd
Focus on Algorithms, Data Structures, and Software Architecture.

Technical Skills

Languages Java, Python, JavaScript, Assembly, R, HTML, CSS, SQL
Frameworks Next.js, React (Learning), Spring Boot, Hibernate
Tools & DB Git, GitHub, Maven, MySQL, VS Code, Eclipse
Design Figma, UI/UX Principles, Graphic Design, Brand Identity

Projects

- 2025 **Personal Portfolio Website**, *0xbarbosa.dev*
Designed and developed a personal portfolio to showcase projects and design skills.
- Built using **Next.js** and **React** for a responsive frontend.
 - Focused on high-performance metrics and accessible UI design.
 - Implemented custom styling to reflect personal brand identity.
- 2024–Present **Academic Coursework Projects**, *University Project*
Developed various backend solutions during practical classes.
- Implemented RESTful API concepts using **Spring Boot**.
 - Managed data persistence using **MySQL** and **Hibernate**.
 - Applied Object-Oriented Programming (OOP) principles in **Java**.

Interests & Achievements

Design Passionate about creating intuitive user interfaces and graphic design assets.
Continuous Learning Actively learning full-stack technologies outside the university curriculum.
Languages Portuguese (Native), English (Professional Proficiency)
